Leadership Team Meeting

April 16, 2026

Financials and Statistics- Year-to-date inpatient days have increased compared to the prior year, aligning more consistently with skilled nursing days. Outpatient surgeries are rebounding following the addition of a second orthopedic surgeon. Radiology, laboratory, and physical therapy services have all shown year-to-date growth. Specialty clinic visits remain stable and continue to support ancillary service volumes. While overall clinic visits declined slightly from the previous month, this trend is consistent with typical seasonal patterns. Legacy census averaged 88% for the month and 91% year-to-date. Total operating margin stands at 10% year-to-date.

Budget timeline for Leadership Team. May 7th for capital expenditures. June 9th first draft.

Healthcare Week May 11-15th with activities planned throughout the week. Theme is "Together We Grow". More detail and flyers will be coming soon!

Nutritional Services Department has hiring needs for the evening aide positions- please help recruit if you know of someone who would be a good candidate.

RHC Clinic coordination – very busy with final field decisions. Parking lot pour next week. Reception counter is set/installed. Preliminary and final punch list walkthroughs are now being scheduled. Anticipate sub-contractor work to be completed end of May with final touch ups first couple weeks of June. Tentative date for move in- live July 1st. potential open house June 14th.

Leadership Academy held its second session focusing on LEAP concepts including:

Setting the Coaching Arena- intentionally deciding how we will show up in conversations and situations. Monkey Mind- negative self-dialogue that tends to put us in a mindset of "I am right and others are wrong". It limits creativity and leads to assumptions. It is important to not allow this dialogue to derail our thoughts, interactions, and decision making. Red/Green Lens is where behavior shift can really begin. When we recognize we are moving from reactive (red) to intentional (green) is where leadership thrives.

Facility Stats

March 2026
